Projects

Online-Resume Builder   01/2023 – 05/2023
- I developed a web-based online resume builder aimed at assisting college students in their final year of graduation. By accessing their college website, students can conveniently open their data and create a resume using the integrated platform.

Online Simple Shoes Shopping Website 🔗   08/2022 – 12/2022
- I developed a captivating and user-friendly shoes shopping website as a project, designed to provide an excellent interface for a seamless shopping experience. The website showcases an extensive collection of shoes, featuring various styles, brands, and sizes.

Avatar Maker   09/2023 – 09/2023
- Created a fun avatar generator where users can input their name and see a random avatar with that name

App-Based Solution, Currently working on   09/2023
- Through a mobile app platform to empower micro and small enterprises with enhanced market access

Certificates

- Java (Duke University) 🔗
- JavaScript (Coursera) 🔗
- Node.Js(Infosys Springboard)
- MongoDB 🔗
